### **CALL FOR TENDERS - MARINE MANAGEMENT ORGANISATION**

The overall aim of the project is to carry out an evaluation of control and enforcement activities undertaken by the MMO relating to fisheries regulations. In order to understand what the additional resources are delivering, the evaluation will need to assess existing control and enforcement activity. A third area is to develop an understanding of compliance with fishing regulations. The task is to deliver an evaluation of control and enforcement activity delivered by the MMO mainly focusing on the period from April 2019 to March 2020. The scope of the evaluation is all MMO fisheries regulatory activity which takes place within the English Exclusive Economic Zone (EEZ) including both the UK fleet and foreign boats fishing in English waters.
